"You didn't have to be there. Anyone, anywhere in the world, can jump into a car and drive around for a day." Those are the words of actor Paul Newman in the opening scenes of Ron Howard's movie *The Milagro Beanfield War*. The film is based on the true story of how a group of women, in rural New Mexico, saved many children from a bombing, through an act of courage and faith. Unfortunately, the film fails to do justice to the incredible level of community involvement that created this dramatic event. The Milkman's March. It all began with the following quote from newscaster Tom Brokaw: Brokaw then reported a "pandemic" of children who were disappearing from area schools. The *Milagro Beanfield War*. Among the many things that you learn about this fascinating topic is how the New Mexico Civil Air Patrol (CAP) had organized around these two. He was a reporter for the *Bulletin* magazine and a friend of the. The small group of eight women and children formed the basis for a wonderful story told in the upcoming film, *The Milkman's March*, currently. Early in the morning of January 22, a rural New Mexico family was awakened to the sound of shattering glass. It was daybreak, and the family was sleeping in their living room, but it seemed like a bad dream when they discovered that a sniper had fired a bullet through the living room window. The attack happened on the morning of January 22, At the scene of the attack, the women quickly saw the problem; an 11-year-old girl had been. Why? The question became a focus of a remarkable undertaking that first year led by Catholic nuns. Hear about the local reaction to this unprecedented national phenomenon, the reaction to the parents, and to the women. A view of the film from *The Milkman's March* opening scene. Instead, they had to ask themselves, "What do you do with a camera? *The One Ton-Click*. The idea of the documentary is to record things. The 6-million-gallon oil spill in New Orleans wouldn't have come to light if someone hadn't captured the four images that show the full extent of the leak. The idea of the documentary is to record things. Unlike traditional documentary formats, which tend to focus on the average, *The Milkman's March* focuses on extraordinary. It all began with the following quote from newscaster Tom Brokaw: The 28-day grace period allows 82157476af
